DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner of Patents and Trademarks

The reply filed on January 17, 2002 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The instant application contains amino acid sequence, but no Sequence Listing or Computer Readable Form as required in 37 CFR § 1.821-1.825 (see the Office action mailed December 17, 2001). See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

The application as originally filed had 21 claims, ending on page 70. Applicants are invited to clear up the matter by supplying copies of the appropriate pages that were originally filed along with a showing that the copies are true copies of what was originally filed.

The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1631.
